Workforce & Compliance

Accepting clients

Your operations backbone — shift scheduling, attendance, zone monitoring, and compliance.

In plain terms: Salma is an operations manager who never misses a detail: she builds the rota, watches attendance and coverage, and keeps you on the right side of labor rules.

WHAT SALMA DOES

- Builds and optimizes staff shift schedules.
- Tracks attendance, lateness, and overtime.
- Monitors zones and cameras for coverage gaps.
- Flags labor-law and compliance risks early.
- Sends alerts and logs incidents automatically.
- Produces clean compliance and hours reports.

SEE SALMA IN ACTION

YOU
Are we covered for the weekend?

SALMA

Mostly — Saturday night is one cashier short. I can pull Ahmed from the 4–10 shift (he's under his weekly hours) or post an open shift.

YOU
Approve overtime for Ahmed.

SALMA

Approved  Note: this puts him near the 48-hour weekly cap, so I capped it at 6 extra hours to stay compliant.

MEMORY & LEARNING — THE BIG DIFFERENCE

- Long-term memory** — remembers your customers, past chats, and preferences, so it never asks the same thing twice.
- Gets smarter over time** — built on machine learning and trained on your data; it spots patterns and improves with every correction.
